

For a Life Lived Well®

Welcome to Wellness. It's a critical time in the health of our nation, with rising medical costs, pinched wallets, and growing chronic health problems. Businesses and individuals alike are searching for ways to secure the health services they need to retain their efficiency and vitality. Plus, legislation is continually changing the face of healthcare requirements and mandates for individuals *and* companies.

The Star Wellness® concept offers an effective remedy: affordable medical screening in the workplace or in retail settings. We believe good health is a good business practice, and that early detection and prevention are the keys to reducing healthcare costs. Our pioneering onsite medical screening and laboratory services are a great starting point for a company's comprehensive wellness strategy. By removing financial and logistical barriers to basic health screening, Star Wellness services help businesses be proactive in their employees' or customers' healthcare.

Everyone benefits when employers and employees work together to promote wellness. Businesses can achieve greater productivity through fewer lost work days and they can lower healthcare costs by reducing the need for longterm "after the fact" treatment.

Employees can enjoy longer and higher-quality lives when their health problems are addressed sooner than later. Even retailers can provide add-on services to their customers through convenient onsite screenings.

Star Wellness services facilitate this process by taking inexpensive, easy-to-access, and confidential screening directly to the people who need it. But it doesn't stop there. In addition to providing individual customers with valuable insights to their health, we also identify trends that employers can integrate into their wellness programs.

All of this is done with state-of-the-art screening and analysis, innovative software, and a streamlined business model that together make our services uniquely desirable and affordable. Life-saving and cost-saving – a winning combination! We hope you agree, and that you'll consider taking wellness to the next level by starting your own Star Wellness franchise.

Sincerely,
